

# SmartCity360°

THE GATEWAY TO INNOVATION

**SUMMIT**

**13-16 October 2015**

**TORONTO, Canada / BRATISLAVA, Slovakia**

# SmartCity360° SUMMIT

The SmartCity360° Summit is a unique event bringing a 360 degree perspective on projects and activities related to Smart Cities. The aim is to coach involved people on the whole path from research and innovation all the way through to **commercialisation of ideas, projects and technologies**.

At SmartCity360° you will get an opportunity to forge new relationships with technology leaders, strategists and key decision makers. The "360°" moniker reflects the goal to cover all facets of Smart Cities, including mobility, urbanism, data analytics, IoT, e-Health, energy and sustainability.

After over ten years of experience in holding events, **EAI conferences** collect the best ideas from all around the world and bring them to the Summit. This joint event between Bratislava and Toronto will open a bridge to share knowledge experience, markets and planning on two continents through joint online sessions and panels.

### BRATISLAVA, Slovakia

## Community participation

As a community based institution, the European Alliance for Innovation pledges to promote cooperation and collaboration among its members.

The **EAI Community program** gives EAI members an opportunity to meet peers, colleagues and renowned experts. It also allows the members to share ideas, find partners and achieve commercial success.

Make the difference in Innovation  
and join the EAI community!

### Meet the speaker

The Meet the Speaker program allows EAI Members to apply to meet specific speakers and discuss various topics. **Potential partnerships** can be built, cooperation established. The speakers are rewarded for their participation - it's a win-win deal!

### Meet a colleague

We provide you with the ideal networking platform. You can browse through the list of participants to see whom you might like to meet to **discuss your ideas**.

### Community voted presentations

Community voted presentations allow you to make the experts listen to you. **Present your ideas to scientific community** and business professionals and push your ideas to the next level.

### Exhibits

As the leading showcase of innovative excellence, you will have the opportunity to share your project with potential partners, investors and innovators worldwide. **Get international visibility**, reach out to a wide audience and monetize your technology.

### Forecast

The EAI forecast is a tool to aid decision makers with predicting the future state of the industry. The Forecaster is a community platform for gathering these predictions and feedback from the research community. The purpose of the project is to **identify rising trends** in a collaborative and participative process.

# Registration

You can find all the information about the registration on the summit's website:

[www.smartcity360.org/2015/registration](http://www.smartcity360.org/2015/registration)
