

Subject: Selection procedure

Slovak University of Technology in Bratislava, Vazovova 5, 812 43 Bratislava, Faculty of Informatics and Information Technology STU represented by a dean, with registered office at Ilkovičova 2, 842 16 Bratislava, in accordance with § 77 of Act no. 131/2002 Journal of Law on Higher Education Institutions, announces the selection procedure for the lecturers:

- 1 place as an **Associate Professor** for the study program 9.2.5 **Software Engineering**,
- 1 place as an **Associate Professor** for the study program 9.2.8 **Artificial Intelligence**,
- 1 place as an **Associate Professor** for the study program 9.2.9 **Applied Informatics in the field of Information Security**.

Qualifying assumptions:

Scientific-pedagogical title of Associate Professor in the relevant or related field of study.

Other criteria:

- managerial skills and experience,
- third degree education in the required field, or in a related field,
- professional experience at least 5 years,
- research activity in the relevant field and publication of its results in scientific journals and scientific conferences of international importance,
- management of research teams,
- organizing international scientific events,
- active English.
- meeting the STU Criteria for habilitation, published on the website: www.stuba.sk/6107

The criteria were approved on 14 May 2014 and took effect on 1 October 2015.

Each candidate will submit a completed table of current habilitation criteria to the application form.

Information for applicants:

The basic monthly salary according to the regulations, depending on the length of the practice, is from 951 – 1,266 €. Depending on the scale and quality of the results achieved, the basic salary may be increased to twice. At FIIT, in 2017, the average monthly statutory salary including rewards and grants in this category was 1,896 €. A further increase in income is achieved through work on faculty projects in cooperation with industry.

Estimated date of accession: subject of agreement.

Applications must be submitted by **12 April 2018**, together with a CV, certified evidence of education, a certificate of professional practice, an overview of scientific research and publishing activities and a

declaration of honour on legal capacity and integrity: Faculty of Informatics and Information Technologies STU, Human Resources Department, Ilkovičova č. 2, 842 16 Bratislava 4.

In the case of internal employees, it is not necessary to provide certified evidence of education.

By submitting the application, the candidate gives his / her consent to the processing of personal data.

The Faculty of Informatics and Information Technology of STU in Bratislava undertakes to use the provided personal data exclusively for the purposes of the selection procedure in accordance with the Act no. 122/2013 Journal of Law on the protection of personal data.
