## SCOPE

The conference focuses on presentation of control methods and algorithms, new control systems, information and communication technologies (ICT) and their industrial applications. Its main aim is to provide a general forum for researchers, teachers and users from practice dealing with practical problems of control and ICT. Conference papers may range from highly theoretical works to industrial and engineering applications. Technical program will include invited talks of leading personalities in control engineering and applied informatics.

## TOPICS

- **Methods and algorithms for modelling and control of continuous and discrete time processes**
- **Advanced control, information and communication systems**
- **Embedded control systems**
- **Applications of advanced control methods, information and communication technologies in industrial processes and service industry.**

## IMPORTANT DATES

<b>Extended abstract submission:</b>	<b>November 16, 2007</b>
<b>Acceptance notification:</b>	<b>November 30, 2007</b>
<b>Final paper submission:</b>	<b>January 10, 2008</b>

## REGISTRATION FEE

**Registration fee** for SSKI members is SKK 6400 and SKK 7200 for non-members.
